

SECOND HARVEST

of the Greater Valley

Juan Osuna

DIRECTOR OF OPERATIONS

Juan has over 21 years of warehouse experience, including 3+ years as the Director of Operations - leading 15 associates, a shift supervisor, and two members of management at Second Harvest of the Greater Valley in Manteca, CA. Prior to becoming the Director of Ops, Juan has also worked as the Warehouse Manager and as a Class A Driver for the food bank for over 5 years. In addition to overseeing and developing associates, he is remarkably thorough and very strong logistically. Over the past 10 years, he has run all aspects of operations at the food bank including managing a solar project which included installs of over 714 panels on one building and 114 panels on another building. Additionally, Juan's operational monuments included managing a complete new warehouse build with office expansions and the installation of commercial generators for both warehouses. He also executed a complete retrofit of LED lighting and new flooring in both warehouses as well.

Outside of the food bank duties, Juan also likes to spend time camping, traveling, and taking evening walks with his family. Watching his girls dance classes and gymnastics brings a sparkle to his eyes.

Juan was also honored as a recipient of the California Trucking Association Safe Driving Award in November of 2013.
